Standing Sea Emergency Party — Damage Control Report

PCV Samudra Paheredar · Exercise · Ship at Sea · Generated 28 Sept 2026, 18:45

SHIP PCV Samudra Paheredar	SCENARIO Ship at Sea (NBCD State II)	EMERGENCY PARTY SSEP — Standing Sea Emergency Party	INCIDENT TYPE Damage Control	LOCATION OF DAMAGE Engine Room	ASSESSMENT Major damage — other parties deployed
DATE 28 Sept 2026	START TIME 1746 hrs	END TIME 1834 hrs	TOTAL DURATION 48 min	OFFICER OF THE DAY Demo Officer 2	HANDS DEPLOYED 11 of 11 billets
DRILL MODE Timed Evaluation	SESSION UTKVSK · Closed				

First Report — Attack Party & Attack 'BA' · 1752 hrs

Attack Party / Search Party

Nvk Demo Hand 07, P/Nvk Demo Hand 03 · 1748
hrs – 1833 hrs

Compartment searched; fractured sea-water cooling line at the port main engine located.

Attack 'BA' / Repair Party

L/Nvk Demo Hand 10, Yantrik Demo Hand 11 ·
1749 hrs – 1832 hrs

Entry in BA; leak partly plugged with wooden wedges; jubilee clip patch applied.

ASSESSMENT

MAJOR DAMAGE

Beyond the Attack parties — other parties deployed in support.

Deployed Parties — Remarks

Main Group

Nvk Demo Hand 01 · 1750 hrs – 1834 hrs

DC control established at the engine-room flat; flooding state reported every 5 minutes.

BA Controller

P/Yantrik Demo Hand 12 · 1753 hrs – 1834 hrs

BA entry and exit logged; one wearer withdrawn on low-air warning.

Support 'A' / Pumping & De-Flooding Party

Nvk Demo Hand 20, Nvk Demo Hand 08, P/Nvk Demo Hand 09 · 1750 hrs – 1833 hrs

Portable pump rigged through the escape trunk; water level held then reduced to bilge level.

Specialist Group

P/Nvk Demo Hand 15, L/Nvk Demo Hand 16 · 1751 hrs – 1832 hrs

Sea-water cooling pump isolated; main-engine stopped; shore-side of the valve shut.

General Remarks

Fracture of the port main-engine sea-water cooling line; Attack Party assessed MAJOR damage after a second leak developed. SSEP closed up in full; leak plugged and patched, two portable pumps reduced the water to bilge level within 40 minutes. Lesson: second portable pump to be stowed nearer the engine-room escape trunk.

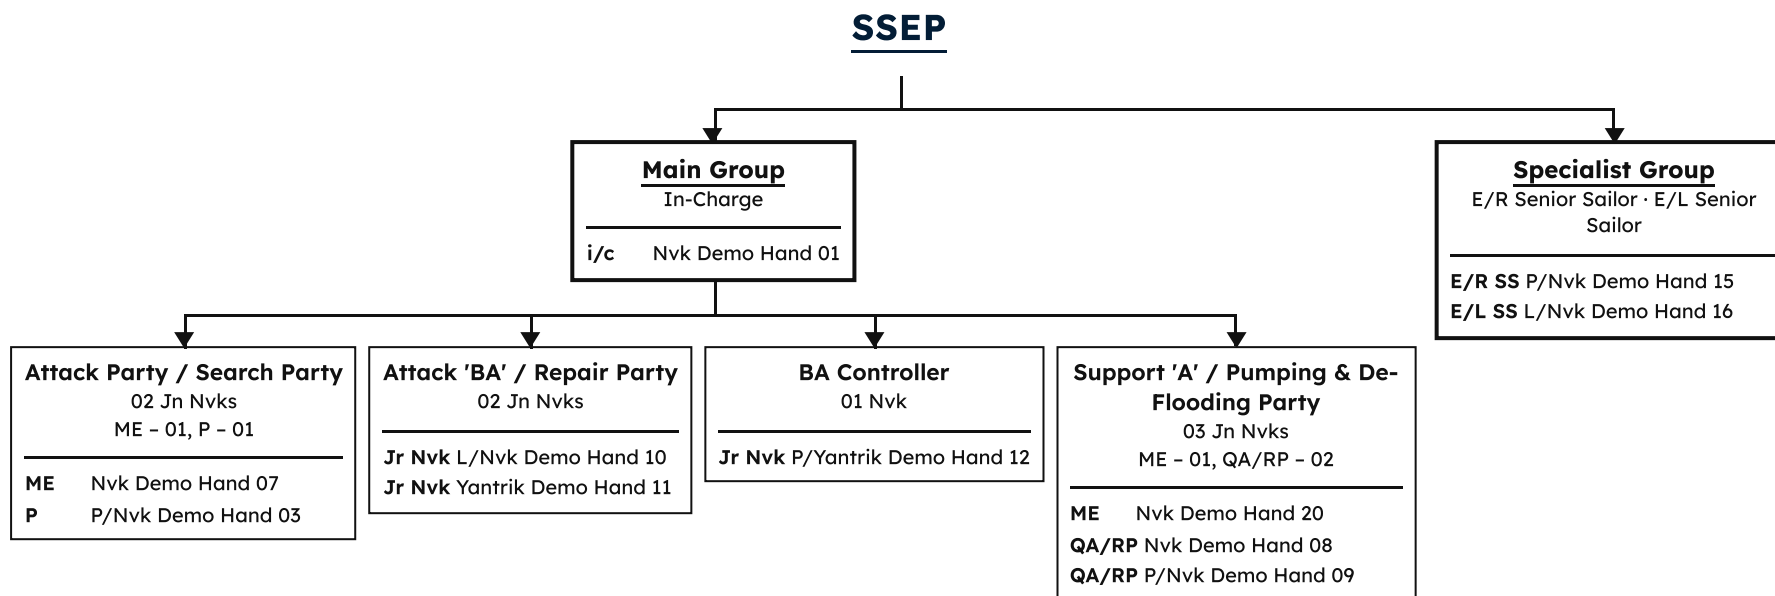

Demo Officer 2

Officer of the Day

Executive Officer

Commanding Officer

Annex A — Organisation as Deployed

Note: Attack Party is to provide assistance to Support 'A'.

Note: If the SSEP is unable to cope with a fire — through lack of personnel or shortage of material resources — it is important that the Executive Officer elevates NBCD State II to State I Condition 'Z', followed by Emergency Stations, in good time. This gets the right people to the right place quickly and brings the ship's DC Parties to State I.

Annex B — Nominal Roll / Muster Card

✓	BILLET	NAME	TIME IN	TIME OUT	PERSONAL REMARKS
Main Group — In-Charge					
	Party remarks: DC control established at the engine-room flat; flooding state reported every 5 minutes. — Demo Hand 01				
	i/c	Nvk Demo Hand 01	1750 hrs	1834 hrs	Used 2 × CO2 extinguishers; visibility poor near the deckhead.
Attack Party / Search Party — 02 Jn Nvks (ME – 01, P – 01)					
	Party remarks: Compartment searched; fractured sea-water cooling line at the port main engine located. — Demo Hand 07				
✓	ME	Nvk Demo Hand 07	1748 hrs	1833 hrs	Carried the thermal imaging camera; reported hot spots to the BA controller.
✓	P	P/Nvk Demo Hand 03	1748 hrs	1833 hrs	Ran out 2 lengths of 45 mm hose; nozzle on spray.
Attack 'BA' / Repair Party — 02 Jn Nvks					
	Party remarks: Entry in BA; leak partly plugged with wooden wedges; jubilee clip patch applied. — Demo Hand 10				
✓	Jr Nvk	L/Nvk Demo Hand 10	1749 hrs	1832 hrs	Checked the boundary every 5 minutes and reported to containment.
✓	Jr Nvk	Yantrik Demo Hand 11	1749 hrs	1832 hrs	Operated the portable pump; suction strainer cleared once.
BA Controller — 01 Nvk					
	Party remarks: BA entry and exit logged; one wearer withdrawn on low-air warning. — Demo Hand 12				
✓	Jr Nvk	P/Yantrik Demo Hand 12	1753 hrs	1834 hrs	Hammered in 3 wooden wedges; needed a second soft patch.
Support 'A' / Pumping & De-Flooding Party — 03 Jn Nvks (ME – 01, QA/RP – 02)					
	Party remarks: Portable pump rigged through the escape trunk; water level held then reduced to bilge level. — Demo Hand 20				

✓	BILLET	NAME	TIME IN	TIME OUT	PERSONAL REMARKS
✓	ME	Nvk Demo Hand 20	1750 hrs	1833 hrs	Kept the BA tally board and entry times.
	QA/RP	Nvk Demo Hand 08	1750 hrs	1833 hrs	
	QA/RP	P/Nvk Demo Hand 09	1750 hrs	1833 hrs	
Specialist Group — E/R Senior Sailor · E/L Senior Sailor					
	Party remarks: Sea-water cooling pump isolated; main-engine stopped; shore-side of the valve shut. — Demo Hand 15				
✓	E/R SS	P/Nvk Demo Hand 15	1751 hrs	1832 hrs	Isolated the supply at the section board as ordered.
	E/L SS	L/Nvk Demo Hand 16	1751 hrs	1832 hrs	

Annex C — Session Timeline

TIME	EVENT	BY
18:41:24	Session UTKVSK created for PCV Samudra Paheredar.	Demo Officer 2
18:41:24	Scenario: Ship at Sea — SSEP.	Demo Officer 2
18:41:24	Incident type: Damage Control.	Demo Officer 2
